The Sun Is Kind of a Big Deal

Written and Illustrated by Nick Seluk

Grades K-2

40 pages

Primary 2 / Nonfiction

About This Book

The Sun never stops working to keep things on Earth running smoothly. (That's why it's been Employee of the Month for 4.5 billion years!) So why does the Sun get to be the centre of attention? Because it's our solar system's very own star!

This funny and factual picture book explains every part of the Sun's big job: keeping our solar system together, giving Earth day and night, keeping us warm, and more. In fact, the Sun does so much for us that we wouldn't be alive without it...which is kind of a big deal.

Each spread features bite-sized text and comic-style art with sidebars sprinkled throughout. Anthropomorphized planets (and Pluto) chime in with commentary as readers learn about the Sun. For instance, Mars found someone's rover. Earth wants the Sun to do more stuff for it. And Jupiter just wants the Sun's autograph.

The Sun Is Kind of a Big Deal is a must-have for readers who love learning!
