

Some people think monsters are the stuff of nightmares — the stuff of scary movies and Hallowe'en. But monsters can also be found right in your backyard. Animals like aye-eyes, goblin sharks and vampire bats may look scary, but they pose no threat to humans. Others, such as the prairie dog, seem innocent – cute, even – yet their behaviour could give you goosebumps. What makes a monster? Read this book to find out...if you dare.

BEST FOR GRADES 1-3
